### Stop the confusion!

Please reflect on the message you send, when you send rubbish in lunchboxes. i.e. only follow the rules that suit you or are not an inconvenience for you. Children find it hard to see the difference between one rule and the next, **so please don't confuse them**. When we are at school, school has rules and we follow them. When we are at home, home has a different set of rules and we follow them etc etc.

Thank you to the 90% of families who are setting clear expectations of 'rule following' to the students! It may seem small to you, but you saying to students, you don't have to follow all rules is so confusing. Please see me if you have a problem with this, because I definitely have a problem with this and so does the research!!

Today I am leaving the rest of this page blank as a metaphor of what rubbish, (according to the school rule requested by students of our school to the board of trustees over a year ago) is allowed in lunchboxes.

Answer: Nothing at all!!!

## SOLIDARITY

### WALKING TOGETHER

Being in solidarity is recognising others as our brothers and sisters and actively working for their good. In our connected humanity, we are invited to build relationships – whakawhānaunatanga – to understand what life is like for others who are different from us.
